What should a good pentest report *actually give us?*

FOUNDER QUESTIONS

Founders ask me this after paying for a test and receiving a fifty-page PDF **nobody on the team reads.**

A good report *gives you:*

1. A summary you could forward to your board
2. Findings developers can act on
3. Clear scope
4. Honest severity
5. A retest

Findings developers *can act on.*

1 Where it is

2 How to reproduce it

3 The impact

4 The fix

3–5

Scope, severity *and a retest.*

3 Clear scope. What was tested, what wasn't, and the dates.

4 Honest severity, based on your business, not just a score.

5 A retest. Proof the fixes work, not just a promise.
